

Dear customer,

Closure of the Transport Direct website

The Transport Direct website will close on 30 September 2014.

In 2004, Transport Direct was the only national door to door journey planner for Great Britain. With the recent launch of several new datasets, a number of planners and travel information websites have entered the market which can now provide you with the travel information you require. For future journey planning services you may wish to consider visiting the following websites:

Cycling

www.cyclestreets.net

Public transport

maps.google.co.uk

traveline.info

www.travelinesoutheast.org.uk

Road journeys

www.theaa.com/route-planner/index.jsp

maps.google.co.uk

www.rac.co.uk/route-planner/

The Department for Transport will continue to take an active interest in journey planning and to assist providers in delivering comprehensive information services for customers.

We wish to thank everyone who has used Transport Direct and helped to make it a success.

Best wishes,

Transport Direct & Travel Information Team, Department for Transport
